

WOODLOT OWNERS

We are committed to supporting New Brunswick’s private landowners and our province’s forest sector. We’re actively buying more wood from woodlot owners, and have grown our team to serve you better. Call us to find out about our services and competitive prices.

We offer:

- Expertise in all available harvesting treatments, including Commercial Thinning, Selection harvesting, and Hardwood Improvement.
- Expertise in road building, road maintenance, and watercourse crossings.
- Ability to market all products and maximize return to the landowner.
- Recommendations and implementation of silviculture prescriptions, including tree planting and pre-commercial thinning.
- Ability to build long-term management plans using the newest available technology.
- All work practices certified to meet strict environmental and safety standards.

WOODLANDS
SINCE 1882

“ This was my first woodlot investment and I wanted to be sure it was treated professionally. Matt and his Woodlands team made the process straightforward and even more profitable than I originally anticipated. I look forward to working with them again in the future.”

Jim Laffoley, Woodlot Owner
